Terraform · AWS · Ansible · Docker · Python · GitHub Actions · Jenkins

Elasticsearch · Grafana · Linux · Bash · Git · AI Agents · n8n

EXPERIENCE

Infrastructure Engineer
MSD Czech Republic
Jun 2022 – Present

– Automated Elasticsearch cluster provisioning and configuration through Ansible playbooks, Terraform/Terragrunt modules, and CI/CD pipelines (Jenkins, GitHub Actions)
– Architecture design and infrastructure provisioning for Disaster Recovery to back up AWS regions holding Logic Monitor clusters
– Built modular Python tooling to monitor and tune Elasticsearch/ELK stack performance via automated API orchestration

Full-stack Developer
Freelance
Sep 2020 – May 2022

– Delivered end-to-end web and e-commerce applications for clients using React.js, Node.js, and WordPress
– Deployed and maintained cloud infrastructure on AWS, handling CI/CD, hosting, and domain configuration

Google Ads Consultant
Accenture (for Google), Ireland
Nov 2019 – Sep 2020

– Technical solutions for Google Ads, YouTube Ads, Merchant Center; optimized ROI for French clients

EDI Specialist
Arvato, Germany
Oct 2018 – Oct 2019

– Managed EDI data mapping and integration pipelines for medical product supply chains, including SAP-based order tracking and ML-assisted classification

Magistrate Judge
Consejo de la Judicatura, Ecuador
2015 – 2018

– Presided over district court hearings and authored published judicial verdicts in public procurement, comptroller general, administrative disciplinary law, and intellectual property. Published verdicts: adrienesquerre.blogspot.com
